Alaska USA pledges \$50,000 to Anchorage Veterans' Memorial

Anchorage, Alaska – In a Veterans' Day ceremony November 11, 2010, Alaska USA Federal Credit Union pledged \$50,000 to support redevelopment of the Anchorage Veterans' Memorial located on the Delaney Park Strip.

“Alaska USA has a history of service to military members and their families that goes back to the start of the credit union in 1948,” said McCue. “It is only fitting that we support this project which provides a quiet, reflective space honoring Alaskans who have served our country.”

The Anchorage Veterans' Memorial was developed 23 years ago with help and funding from the community, including Alaska USA. The current project will include improved access for the disabled, new plants and landscaping, added lighting and security systems, and increased relevance to veterans and those who would honor them.

More about Alaska USA

Alaska USA Federal Credit Union is a member-owned, not-for-profit financial cooperative with \$4.3 billion in assets and over 407,000 members worldwide, many of whom are current or retired members of the military.

The credit union operates 60 branches in Alaska, California, and Washington and has a 62-year tradition of providing exceptional service, value and convenience.
