Alaska USA adds Financial Centers

Alaska USA Federal Credit Union will build new Financial Centers in three Alaska communities. These include one in Anchorage to open Summer 2005, one in Soldotna to open Fall 2005, and one in Fairbanks to open in Summer 2006. The Financial Centers are in addition to Alaska USA’s 45 branches in Alaska and Washington.

The Financial Centers will include a number of centralized member service functions and subsidiary organizations in each community, including business and commercial lending, Alaska USA Trust Company, Alaska USA Mortgage Company, and Alaska USA Insurance Brokers.

Bill Eckhardt, Alaska USA President, remarks that, “for years Alaska USA has been expanding its branch network so members have convenient access to credit union services. The new Financial Centers continue that tradition by offering business and commercial lending, mortgages, investments, trusts and insurance services under one roof. Members can easily take care of these needs in one convenient location.”

Alaska USA Federal Credit Union is a not for profit, member owned financial cooperative with 275,000 members worldwide and $2.6 billion in assets. The credit union has 45 branches in Alaska and Washington, many open seven days a week.
