

✓ Secure, easy bill payment ✓ Save money — no stamps needed ✓ Save time — pay bills anytime, anywhere

Bill Pay is a monthly subscription service offered through UltraBranch® for members with Alaska USA personal checking accounts. It's a convenient and powerful tool that lets you pay your bills electronically.

Paying bills used to be a chore - now it just takes a few clicks

- Pay anyone, anytime, anywhere in the United States from the comfort of your computer or cell phone.
- It's easy to set up and use, and also includes a Payment Assistant that walks you through the process step by step. Features such as the "Quick Add" process even allow you to enter new biller information with as little as the company name or phone number.

Bill Pay saves you money

It's free to use Bill Pay to pay up to 15 bills a month. Additional payments are 40 cents each, still less than a postage stamp! Just think – you don't have to pay for stamps anymore; that could save you \$88.20 or more a year! You will also write (and order) fewer paper checks. Plus, it's easier to avoid late fees when you schedule your bills in advance or set up automatic payments.

Getting organized is easy

Bill Pay allows you to get organized and stay on top of your bill payments. You'll have one place to review and pay bills - from home, work, or while traveling. Other features that help you stay organized include automatic payments, easy bill scheduling, and an interface that lets you see all your upcoming bills at a glance along with your current checking account balance.

- Set up automatic payments, such as a car payment or rent.
- Use the eBills feature to receive your bills electronically, get payment reminders, and expedite your payments.
- Choose the date you want your bill to be paid. If you're paying an electronic biller, it usually takes just one business day. Other payments need to be scheduled at least four business days in advance.
- Money will be withdrawn from your account on the pay date you select; the biller will be paid on this day as well.
- When you enter an amount for payment, Bill Pay automatically displays the earliest date you can select for the company or person to receive the payment. You can either accept this date or change it to a later one.

Security

Alaska USA is committed to protecting the privacy of your financial information. UltraBranch Bill Pay not only offers password safeguards, but also encryption, SSL (Secure Socket Layer) technology, and automatic sign-out if your session is inactive for 10 minutes.

Sign up today

If you already use UltraBranch, simply log in, click on the Bill Pay tab, and follow the instructions. If you aren't an UltraBranch user, you can sign up today at any branch or complete an application at alaskausa.org.

Mobile **Bill Pay**

Once you're signed up for UltraBranch Bill Pay, you can use your cell phone to pay bills anywhere.
