

UltraBranch Business Edition

✓ 24/7 account management ✓ Varied levels of access ✓ Fast payment options through ACH/Wires

UltraBranch® Business Edition is Alaska USA's online account access tool for member-owned businesses, organizations, and associations. Once enrolled, users can access accounts online anytime from just about anywhere.

Put a variety of tools in your financial management toolbox

In addition to basic features, UltraBranch Business Edition offers tools especially for businesses:

Entitlements – Give other users access to your account, with the flexibility of limiting the type of access you grant.

Wires – Allows you to request an electronic transfer of funds to an account at another U.S. financial institution over the Fedwire.

ACH payments – Use ACH to easily make recurring payments, such as payroll direct deposit, expense reimbursement, and taxes.

Tax payments – Access several types of federal tax forms in order to make online payments to the IRS. Manage withholding, schedule payments, and view reports.

Consolidated login – Businesses with more than one Alaska USA account can consolidate them in UltraBranch Business Edition for comprehensive account management from one login (not available for organizations or associations).

Bulk check download – Keep track of cancelled checks one by one as they clear, or download them all together in a batch after the end of each month.

Bill Pay – Schedule and pay bills online.

Order deposit supplies – Order deposit tickets or items needed to make deposits through the Business ATM Bulk Depositories*.

**Available in Alaska only*
