Managing finances across several financial institutions is a hassle. With ClickSWITCH™, you can easily consolidate all of your direct deposits and automatic payments to your Alaska USA account.

How it works

ClickSWITCH helps you move all of your direct deposits and automatic payments to your Alaska USA account by generating applicable forms and sending them to your other financial institutions, depositors, and billers. The process of switching is seamless, and you can monitor your requests to ensure that you don't miss a payment during the transition.

How to get started

1. Log in to your Alaska USA account online.
2. Click on the Account Services tab and select ClickSWITCH.
3. ClickSWITCH will guide you through a step-by-step process to search for any depositors or billers in the ClickSWITCH database, and help add any new ones as needed.

A little organizing up front can make switching your accounts even easier, so we've created a simple checklist to help you remember the most likely sources for your automatic deposits and payments.
